We Are Democracy

Thank you for participating in the #WeAreDemocracy postcard campaign! This document contains all the files you need to print your own postcards onto card stock. Simply print, trim, write your message, and mail – it's an easy and impactful way to let your local election officials know how much they are appreciated!

Help us spread the word about this project! Please snap some photos of your completed postcards and post to social media with our hashtag #WeAreDemocracy. This helps tie our efforts together into one cohesive whole.

Thank you so much!

***** NOTE: Please make sure to include your name and zip code on your postcard, so that your officials know it came from a grassroots member of their own community! *****

Printing and Setup Tips:

- Do not scale to fit or shrink to fit
- Print at 100%
- Postcards must be printed on 80lb to 110lb cardstock
- You can purchase reams of postcard paper on Amazon for roughly $10
- This PDF includes images for the front *and* back of two postcards. In order for your postcards to print properly, please print only pages 2-3 of this PDF, and make sure to select 'Print on both sides of paper' and 'Flip on the long edge'
- If your printer does not have this option, you will simply need to flip the stock paper over and feed it through a second time
- We Are Democracy postcards measure 3-5/8" x 5-5/8" – meaning a postcard-rate stamp is all that is required (regular rate stamps will work as well, and are a way to support your local postal office).

WE ARE DEMOCRACY

"The most secure election in American history."

Thank you!
